PROFESSIONAL SUMMARY

Senior Front-End Engineer specialized in React and Next.js, focused on performance and cost optimization at scale. Experience improving key metrics (Core Web Vitals, revenue, CI/CD) in products with millions of concurrent users.

WORK EXPERIENCE

TelevisaUnivision, via BairesDev, Senior Front-End Engineer (10/2022 - Present)

- Contributed to the migration and implementation of a serverless AWS architecture using GraphQL, Redis, and Next.js (SSR with OpenNext), reducing operational costs by 80% and improving site performance by 50% based on Chrome UX Report (CrUX Vis) metrics.
- Integrated advertising platforms such as Taboola and Google Publisher Tag, increasing revenue by 20%.
- Ensured global privacy compliance by implementing OneTrust CMP (GDPR, CCPA, and LATAM regulations).

Shutterstock, via BairesDev, Full-Stack Engineer (05/2022 - 10/2022)

- Optimized and maintained the codebase, improving application performance and developer experience through refactoring, technical debt reduction, and load time improvements.
- Optimized the CI/CD pipeline, reducing unit test execution time by 50%–80%, accelerating deployment cycles and team feedback.

TEVOLV, Software Engineer (02/2019 - 05/2022)

- Developed mobile banking applications following the MVC pattern, ensuring scalability and maintainability.
- Implemented features such as authentication, transactions, and account management using the Kony Framework.
- Integrated the application with core banking systems (Temenos T24) and Java-based microservices.

SKILLS

Languages: HTML5, CSS3, JavaScript, TypeScript, Java

Frameworks: Next.js, NestJS, Kony Framework, Astro

Libraries: React, SolidJS, Redux, Zustand, TailwindCSS, UnoCSS

API: REST, GraphQL

Version Control: Git

CI/CD: Github Actions, Jenkins

Testing: Jest, React Testing Library, Playwright

Containers: Docker

Observability: New Relic

Databases: SQLite, MongoDB, Redis

Runtime Environments: Bun, Node

Cloud: AWS

Platforms: Temenos Transact (T24)

LANGUAGES

English: Full professional proficiency

Italian & Spanish: Native proficiency

German & French: Intermediate

EDUCATION

UNAPEC University: Software Engineering (08/2018 - 08/2022)
